

PRESSURE BOILER

Our Boiler is a high quality device suitable for dispensing hot water for espresso and solubles.

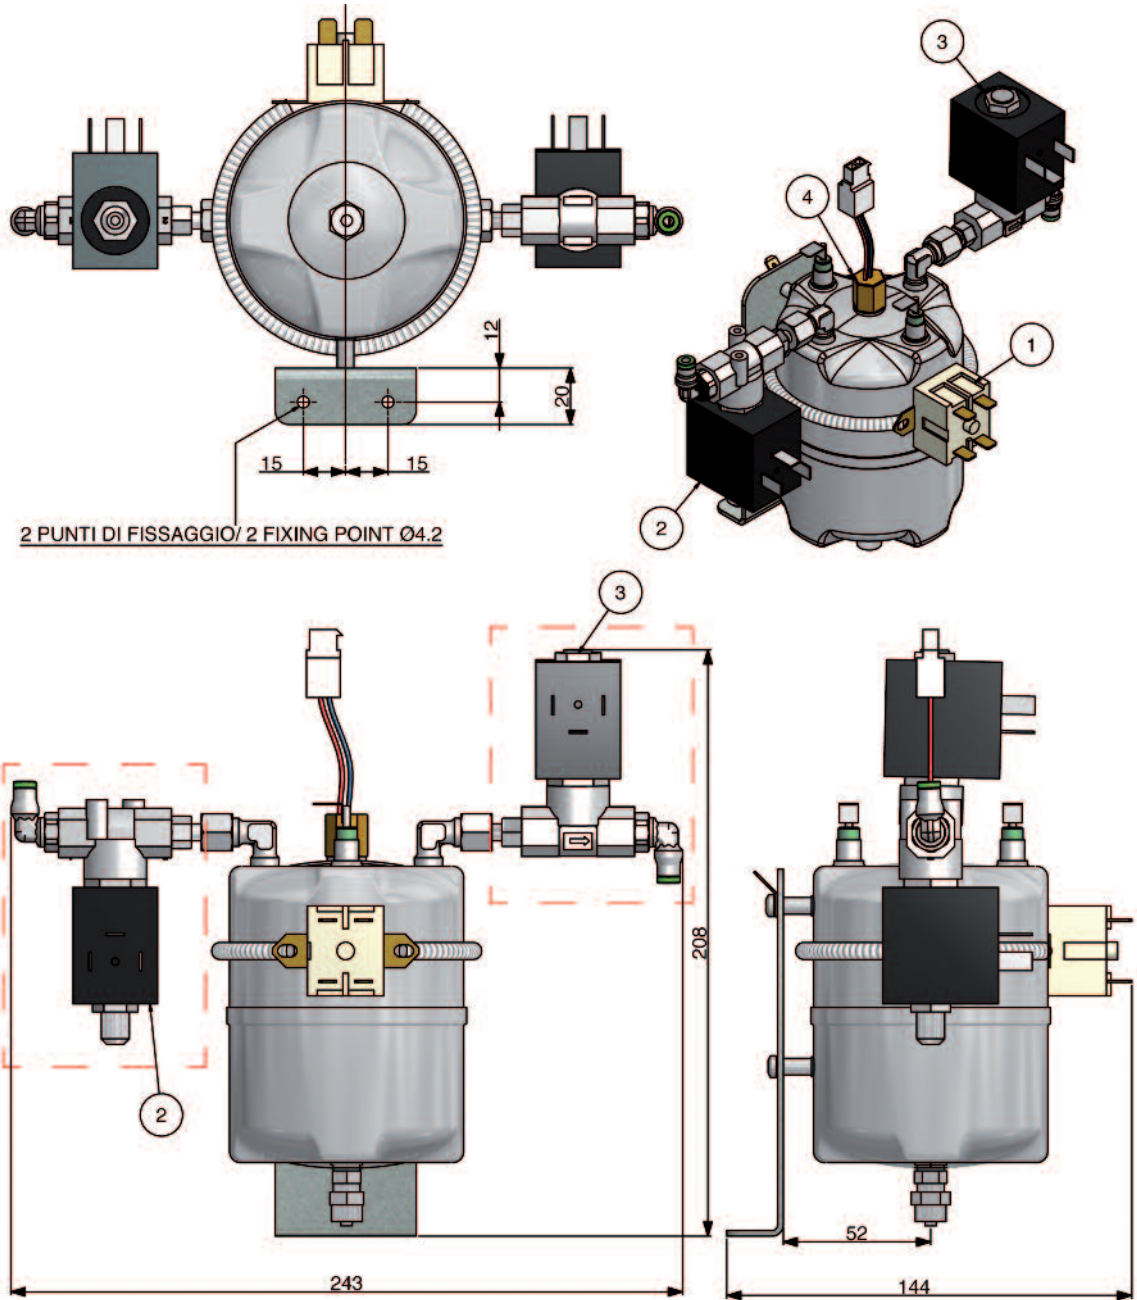

TYPICAL APPLICATIONS

- Food industries
- Hot beverage dispenses
- Equipment for the nutrition of livestock

CHARACTERISTICS

- Capacity: 500cc
- Heating element: 1500W (230Vac 50Hz)
- Two separate outlets
- Body in stainless steel
- Components suitable for food contact
- Safety and control features

PRESSURE BOILER

TECHNICAL DATA

- 1) Safety thermostat 125°C
- 2) Outlet valves suitable for espresso coffee (or valve suitable for soluble)
- 3) Outlet valve for soluble (1 or more valves)
- 4) NTC probe 100Kohm @25°C-Also to customer specification

Compliant with RoHS directive 2011/65/EU
