

KUBE

ESPRESSO GROUP SERIES 700A
INTEGRATED MOTOR 24 VDC

ESPRESSO GROUP SERIES 700E
EXTERNAL MOTOR 230 V AC or 24 VDC

Kube is an innovative espresso coffee brewer that produces a superb cream within a neat, compact, and practical unit.

The versatile infusion capacity (up to 14gr of ground coffee) and the bi-directional hydraulic delivery make Kube a unique brewer of its kind.

TYPICAL APPLICATIONS

- Hot beverage vending machines
- Coffee machines

FEATURES AND BENEFITS

- Capacity of coffee doses from 6gr to 14gr (depending on version)
- Reverse hydraulic flow option gaining 70mm height recovery in machine layout
